REASONS FOR ALLOWANCE

Response to Arguments

Applicant's arguments, see page 9, filed November 11, 2005, with respect to claims 1-20 have been fully considered and are persuasive. The following rejections have been withdrawn: 35 U.S.C 102(b) and 35 U.S.C 103(a) rejection of the presently pending claims.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach or reasonably suggest a method of fitting a cochlear implant by setting a starting sound level to build an iso-loudness contour, setting volume on a first channel until the sound is at a predetermined level, adjusting volume on a second channel until the volume of sound on the second channel is similar to the volume of sound on the first channel, then setting the next channel to result in the same sound volume determined for the previous channel, repeating the setting of the next channel for each available channel until stimulation level for the last channel is adjusted and the M iso-loudness contour is built, picking one channel and determining the volume level of that one channel, and generating a T iso-loudness contours by determining the difference in the column level measured for the one channel and the M volume level found previously for that channel and linearly shifting the M iso-loudness contour by the determined difference in volume level, in-combination with the other elements in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alyssa M. Alter whose telephone number is (571) 272-4939. The examiner can normally be reached on M-F 9am to 4pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Angela Sykes can be reached on (571) 272-4955. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
